Ayres, Marion H.	M.A.	Assistant	Harbord	Sept., 1909
Ball, Alice I. N.	B.A.	Assistant	Oakwood	Oct., 1913
*Balmer, Eliza M.	B.A.	Head of Dept.	Harbord	Jan., 1892
Barnes, Charles H.	1st Cl. Cert.	Assistant	Jarvis	Oct., 1902
Barnes, Charles L.	B.A.	Head of Dept.	Jarvis	Oct., 1907
Barr, Annie E.	B.A.	Assistant	Humberside	Sept., 1913
Barr, Lydia A.	B.A.	Head of Dept.	Malvern	Oct., 1908
Barry, Minnie L.	B.A.	Assistant	Oakwood	Oct., 1908
Barton, A. R.	B.A.	Assistant	Oakwood	Oct., 1908
Bennett, John S.	B.A.	Head of Dept.	Humberside	Sept., 1909
Bicknell, Harry E.	1st Cl. Art. Sp.	Assistant	Parkdale	Sept., 1913
Brown, Henry W.	B.A.	Assistant	Harbor	Sept., 1909
Carlyle, John A.	M.A.	Assistant	Harbord	Sept., 1911
Charles, Henrietta	B.A.	Head of Dept.	Humberside	Jan., 1901
Clarke, L. H.	B.A.	Assistant	Malvern	Jan., 1901
Clark, Luther J.	B.A.	Head of Dept.	N. Toronto	Sept., 1896
Clarke, Bruce W.	B.A.	Assistant	Humberside	Sept., 1913
Clarke, Frederick H.	B.A.	Head of Dept.	Oakwood	April, 1904
Colbeck, Wilhelmina	B.A.	Assistant	Humberside	Sept., 1913
Corbett, L. H.	M.A.	Assistant	Harbord	Sept., 1913
Cosens, Absalom.	M.A. Ph.D.	Head of Dept.	Parkdale	Oct., 1904
Dafoe, Helen I.	B.A.	Assistant	Malvern	Oct., 1904
Darroch, William F.	1st Cl. Cert.	Assistant	Parkdale	Sept., 1908

* Died July 6, 1915.

Dugit, Rosalie	M.A.	Assistant	Parkdale	Sept., 1913
Dunkley, Albert W	M.A.	Head of Dept.	Oakwood	Sept., 1909
Dunnett, Alfred H	B.A.	Assistant	Riverdale	Nov., 1904
Durie, Helen F	M.A.	Assistant	Jarvis	Sept., 1913
Evans, William A	1st Cl. Cert.	Assistant	Humberside	Nov., 1904
Faw, Edward	1st Cl. Cert.	Assistant	Riverdale	Nov., 1914
Flock, F. Arthur	B.A.	Assistant	Riverdale	Nov., 1908
Fraser, Charles G	M.A.	Assistant	Harbord	Sept., 1910
Glassey, David A	B.A.	Head of Dept.	Harbord	Dec., 1906
Gourlay, Richard	B.A.	Head of Dept.	Humberside	Sept., 1893
Graham, Louis H	M.A.	Head of Dept.	Malvern	Nov., 1903
Halbert, Edwin J	B.A.	Assistant	Jarvis	Sept., 1909
Hanna, W. E	B.A.	Assistant	Oakwood	Sept., 1914
Hardy, Edwin A	B.A., D.Paed.	Head of Dept.	Jarvis	Sept., 1910
Hatch, Salem B	1st. Cl. Cert	Assistant	Humberside	Sept., 1909
Hawkins, Maud M	B.A.	Assistant	Harbord	Nov., 1911
Hofferd, George W	B.A.	Assistant	Oakwood	Jan., 1913
Hillock, Julia S	B.A.	Head of Dept.	Parkdale	Sept., 1900
Horton, Charles W	B.A.	Head of Dept.	Malvern	Oct., 1904
Hutchinson, John I	M.A.	Assistant	Parkdale	Sept., 1909
Irwin, Herbert W	B.A.	Head of Dept.	Oakwood	Nov., 1905
Ivey, Thomas J	M.A.	Head of Dept.	Harbord	Oct., 1904
Jennings, W. Arthur	B.A.	Head of Dept.	Jarvis	Jan., 1907
Jermyn, P. T	M.A.	Assistant	Harbord	Sept., 1914 (R't'd)
Jewett, Albert E	B.A.	Head of Dept.	Oakwood	Sept., 1906
Johnston, Frederick J	M.A.	Head of Dept.	Humberside	Oct., 1904
Jones, George M	B.A.	Head of Dept.	Humberside	Nov., 1909
Keast, Walter	B.A.	Assistant	Harbord	Sept., 1907
Keillor, James	B.A.	Assistant	Jarvis	Jan., 1905
Keith, George W	B.A.	Head of Dept.	Parkdale	Sept., 1907
Kennedy, Thomas	M.A.	Head of Dept.	Oakwood	Feb., 1906
Kent, Eleanor	1st Cl. Cert.	Assistant	Harbord	Oct., 1913
Ketcheson, F. Blanche	B.A.	Assistant	Oakwood	Sept., 1907

ASSISTANTS—*Continued*

Kidd, Trueman W.	B.A.	Assistant	Riverdale	Sept., 1909
Knight, Carrie M.	M.A.	Assistant	Harbord	Sept., 1912
Lamb, W. J.	M.A.	Assistant	Harbord	Sept., 1913
Lawlor, Gertrude	M.A.	Head of Dept.	Harbord	Jan., 1892
Lingwood, Frederick H.	M.A., D.Paed.	Head of Dept.	Malvern	Sept., 1910
Lougheed, William J.	M.A.	Head of Dept.	Jarvis	Jan., 1907
Milburn, C. A.	M.A.	Assistant	Jarvis	Sept., 1912
Miller, Muriel E.	B.A.	Assistant	Riverdale	Sept., 1914
Mills, John H.	M.A.	Head of Dept.	Parkdale	Sept., 1906
Moore, James R.	M.A.	Head of Dept.	Riverdale	Nov., 1904
Morrow, John D.	B.A.	Assistant	Humberside	Sept., 1913
Munro, Peter F.	M.A., B.Paed.	Assistant	Riverdale	April, 1907
Murdoch, William E.	B.A.	Assistant	Jarvis	Feb., 1903
McDonald, Evelyn.	M.A.	Assistant	Oakwood	Oct., 1913
McKinley, James M.	B.A.	Head of Dept.	Riverdale	Sept., 1907
McQuarrie, Ernest C.	B.A.	Assistant	Humberside	Jan., 1915

Tapscott, Henry B	M.A.	Head of Dept.	Jarvis	Sept., 1906
Thomas, Janie	M.A.	Assistant	Jarvis	Sept., 1882
Watson, Erwin H. A	B.A.	Head of Dept.	Riverdale	Oct., 1904
Wightman, Robert	B.A.	Head of Dept.	Harbord	Jan., 1903
Willson, Alice M	B.A.	Head of Dept.	Riverdale	Sept., 1908
Wood, Frank H. (enlisted)	B.A.	Head of Dept.	Malvern	Sept., 1905
Wren, John S	B.A.	Head of Dept.	Riverdale	Mar., 1906
Young, Edmund T	1st Cl. Cert.	Assistant	Harbord	Feb., 1907

ATTENDANCE OF PUPILS

REGISTERED AND AVERAGE ATTENDANCE

(a) For first half of year (January to June):

		Lower	Middle	Upper	Total
Jarvis	Reg.	266	173	37	476
	Av.	239	157	35	430
Parkdale	Reg.	304	162	27	493
	Av.	264	150	25	439
Harbord	Reg.	392	219	43	654
	Av.	352	199	40	591
Humberside	Reg.	325	127	32	484
	Av.	269	111	27	407
Riverdale	Reg.	226	100	35	361
	Av.	205	96	35	336
Oakwood	Reg.	345	127	25	497
	Av.	296	118	22	436
Malvern	Reg.	145	41	11	197
	Av.	128	33	10	171
North Toronto	Reg.	78	46	10	134
	Av.	70	35	9	114

Total registered attendance 3,296
Total average attendance 2,924

Registered and average attendance—
(b) For second half of year (Sept. to Dec.):

		Lower	Middle	Upper	Total
Jarvis	Reg.	283	169	26	478
	Av.	262	146	25	433
Parkdale	Reg.	321	173	26	520
	Av.	296	159	24	479
Harbord	Reg.	384	233	40	657
	Av.	354	212	37	603
Humberside	Reg.	337	135	37	509
	Av.	309	120	34	463
Riverdale	Reg.	328	106	18	452
	Av.	303	93	17	413

ATTENDANCE OF PUPILS—Continued

		Lower	Middle	Upper	Total
Oakwood	Reg.	378	204	34	616
	Av.	343	178	26	547
Malvern	Reg.	146	59	10	215
	Av.	136	55	9	200
North Toronto	Reg.	86	54	15	155
	Av.	79	46	12	137

Total registered attendance 3,602

Total average attendance 3,275

The smaller proportionate average attendance in the first half of the year is due to the fact that many pupils leave school at the close of the winter term to engage in some other line of work.

New pupils enrolled during the year, distributed as follows:

Jarvis, 208; Parkdale, 208; Harbord, 250; Humberside, 202; Riverdale, 219; Oakwood, 270; Malvern, 94; North Toronto, 71.

Total enrollment of new pupils, 1,522.

Number of pupils who passed Departmental and University Examinations, as follows:

Pass Matriculation only	222
Honor Matriculation	128
Entrance to Normal Schools	117
Entrance to Faculties of Education (part 1)	27
Entrance to Faculties of Education (part 2)	25
University Scholarships ranked for	19
University Scholarships awarded	12

Respectfully submitted,

G. A. SMITH,

Senior Principal of High Schools.

Chief Inspector's Annual Report

CHIEF INSPECTOR'S ANNUAL REPORT

To the Board of Education, Toronto:

I have the honour to present the following Report regarding the Public Schools under your charge for the year 1915:

Appended to the Report will be found Statistical Tables, which give in detail the usual particulars relating to Teachers, Pupils, Attendance, Tardiness, Studies Pursued, Cost of Maintenance, etc., including also some references to conditions up to the close of the school year ending June 29th, 1916.

ATTENDANCE

The total number of pupils registered during the year was: In the kindergarten, 9,645; in the other classes, 60,755; total, 70,400.

The average daily attendance was: In the kindergarten, 5,012; in other classes, 44,546; total, 49,558.

The Average Monthly Registered Number was 58,788 (see Table A).

The average of Monthly Average Numbers was 51,519 (see Table B).

The average of Monthly Averages was 87 per cent. of the Average Monthly Registered Number.

The best average for any month in the year was 93.4 per cent., the average for October.

The largest number, 59,343, was registered in October, and the smallest number, 56,121, in June.

The following statement shows the average registered number in each School during the year:

SCHOOL	Average Registered No.	No. of Rooms	Average Per Teacher
Alexander Muir	897	19	47
Allan	87	3	29
Annette Street	1,047	21	50
Balmy Beach	453	9	50

	58,788	1232	48

ATTENDANCE IN THE VARIOUS CLASSES

The registered number in attendance during the year in the different classes was as follows:

Kindergarten	9,645
First Book	21,145
Second Book	13,787
Third Book	13,797
Fourth Book	11,190
Commercial	836

The difference in the various classes compared with last year is as follows:

Kindergarten, decrease	3,064
First Book, increase	385
Second Book, increase	588
Third Book, increase	619
Fourth Book, increase	1,095
Fifth Book, increase	24

MEDALS AND CERTIFICATES OF HONOUR

Certificates of Honour and Medals are awarded at the Midsummer closing, to such pupils as have not been once absent or late, and whose conduct has been uniformly good.

Bronze Medals are awarded to such pupils as have conformed to the above conditions for four years.

Silver Medals are awarded to such pupils as have conformed to the above conditions for eight years, or who have passed from the Senior Fourth Book Class in less than eight years, provided they have taken their whole school course in Toronto Public Schools and have received honour certificates during each year of their course.

A Silver Clasp is given to each pupil who conforms to the above for each year over eight years.

The following statement shows the number of Medals and Certificates awarded at the Midsummer closing in the several schools:

SCHOOLS	Certificates	Bronze Medals	Silver Medals	Clasps
Alexander Muir	185	16	2	..
Annette Street	121	14	2	..
Balmy Beach	85	3	..	..
Bedford Park	33	2	..	..

TEACHERS

There were 1,224 Teachers and 195 Kindergartners employed in the schools of Toronto during the past year in addition to the special teachers.

The following supervisors were employed: A Supervisor of Kindergartens, a Supervisor of Drawing, a Supervisor of Music, and a Supervisor of Physical Culture.

The following Assistant Supervisors were employed: One in Art, two in Music, one in Writing, and one in Physical Culture.

The following special teachers were employed: thirteen in Manual Training and fifteen in Domestic Science.

The certificates of the teachers were as follows: First-class, 272; second-class, 952.

KINDERGARTENS

The certificates of the Kindergartners were as follows: Director, 181; Assistant, 12; Kindergarten Primary, 2.

There were 83 Kindergartens in connection with our schools. The total number registered in the Kindergartens during the year was 9,645; the average of monthly registered numbers was 7,085, and the average of monthly average numbers was 5,384. The following table shows the registered and average attendance for each month:

	Registered Attendance	Average Attendance
January	6,762	5,122
February	5,733	4,178
March	5,977	4,503
April	7,482	5,820
May	7,665	5,801
June	7,027	5,442
September	7,158	5,512
October	7,474	5,930
November	7,374	5,575
December	6,859	4,938

The total amount paid to Kindergartners for salaries in 1915 was $111,696.35.

The total amount paid for Kindergarten supplies was $8,853.16.

The total cost for Kindergartens for salaries and supplies was $120,549.51.

The cost per pupil on the basis of total enrollment was $12.50 for salaries and supplies.

The cost per pupil on the basis of average monthly number was $22.39 for salaries and supplies.

The cost per pupil in the Kindergarten on the basis of total enrollment was $15.67 for salaries, supplies, fuel and caretaking.

The cost per pupil in the Kindergarten on the basis of average monthly number was $28.07 for salaries, supplies fuel and caretaking.

The attendance in the Kindergartens throughout the year was as follows:

HIGH SCHOOL ENTRANCE EXAMINATION 1915

In June, 1915, the High School Entrance Board accepted the certificates of Principals of the Public Schools in lieu of the examination in the subjects of Part II of the High School Entrance Examination. The pupils who were otherwise eligible, but who were not so recommended, had the option of taking the examination in the subjects of Part II.

Entrance certificates were granted to 1,515 candidates on the certificates of Principals.

Of those who were not recommended, 612 wrote on the Entrance Examination, and 290 succeeded in obtaining Entrance certificates.

The following statement shows the numbers from each school that passed on the certificate of the Principal and by examination.

THE INDUSTRIAL SCHOOLS

The attendance at the Victoria Industrial School for Boys during 1915 was 295. Of these 105 attended during the whole year; 191 were sent from the Institution and 190 were admitted.

The attendance at the Alexandra Industrial School for Girls during 1915 was 149. Of these 70 attended during the whole year; 42 were sent out during the year and 37 were admitted.

SUPERVISED PLAYGROUNDS

ANNUAL STATISTICAL REPORT FOR THE SEASON 1915

Supervised Playgrounds were conducted in July and August on the school grounds at the following fifteen different centres, representing an increase of three centres over the previous year:

Annette Street, Essex Street, Fern Avenue, Jesse Ketchum, Joseph Workman, Manning Avenue, Ogden, Pyne, Queen Alexandra, Riverdale, Roden, Rose Avenue, Sackville Street, Strathcona and York Street.

Mr. W. F. Kirk, Principal of Jesse Ketchum School, was appointed General Supervisor of Playgrounds, and made numerous regular visits to the various centres throughout the entire vacation period.

GENERAL SUMMARY

Total number of teachers employed	62
Total average attendance of pupils:	
(a) July, mornings	1,979
(b) July, afternoons	2,210
(c) August, mornings	1,680
(d) August, afternoons	1,838

Cost of Maintenance:

Salaries:—		
Teachers	$2,891.50	
General Supervisor	150.00	
Caretakers	977.25	
Supplies, Equipment, etc.	1,435.21	
		$5,453.96
Total cost per pupil, calculated on the basis of an average attendance of 1,925 pupils per day		2.8

ANNUAL STATISTICAL REPORT FOR THE SEASON, 1916

Supervised Playgrounds were conducted in July and August on the school grounds at the following eighteen centres, representing an increase of three centres over the previous year:

Essex Street, Fern Avenue, Jesse Ketchum, Joseph Workman, King Edward, Manning Avenue, Ogden, Pyne, Queen Alexandra, Riverdale, Roden, Rose Avenue, Sackville Street, Strathcona, Western Avenue, York Street, Victoria Street Creche, West End Creche.

Mr. J. A. Woodward, Principal of Alexander Muir School, was appointed General Supervisor of Playgrounds, and made numerous regular visits to the various centres throughout the entire vacation period.

GENERAL SUMMARY

Total number of teachers employed..... 69

Total average attendance of pupils:

(a) July, mornings	1,915
(b) July, afternoons	1,696
(c) August, mornings	1,647
(d) August, afternoons	1,303

Cost of Maintenance:

Salaries:—		
Supervisors	$3,568.00	
Caretakers	896.25	
Supplies	1,040.25	
Nurses	1,080.00	
		$6,584.50
Total cost per pupil, calculated on the basis of an average attendance of 1,640 pupils per day		4.01

While there were three more centres than in 1915, the total cost was substantially the same, excepting the additional cost on account of school nurses, for which there was no provision in previous years.

A shrinkage of almost 300 in the daily average attendance of pupils is attributed to the exceedingly hot weather and the alarm of parents on account of infantile paralysis.

VACATION SCHOOL, 1915

The Vacation School was opened on July 2nd, at Hester How School and remained open during the months of July and August.

The following staff conducted the work of the school during that period:

Principal—Miss J. L. Jamieson.

Assistants—Miss A. M. Bleakley, Miss E. Charlton, Miss Laura Mowat, Miss L. Olver, Miss B. Nudel, Miss E. Johnston, Miss E. E. Warner.

Total number of pupils enrolled	1,185
Total expenditure	$851.73
Cost per pupil enrolled	.72

VACATION SCHOOL, 1916

The Vacation School was opened on June 30th, at the Hester How School, and remained open until August, 31st

The following staff conducted the work of the School:

Principal—Miss J. L. Jamieson.

Assistants—Miss A. M. Bleakley, Miss L. Olver, Miss E. Johnston, Miss B. Nudel, Miss E. Charlton, Miss E. E. I. Warner, Miss L. E. Mowat.

Total number of pupils enrolled	1,160
Total expenditure	$824.75
Cost per pupil enrolled	.71

Over 400 children were enrolled the first day. The daily attendance was very large until the end of the first week of August, when some alarm as to infantile paralysis affected the subsequent attendance.

As usual, classes were conducted from Kindergarten up, and much attention was given to handwork, including basketry, weaving, pattern cutting, embroidery, and sewing. As a result of this work many and various useful things were made, such as mats, needle-books, handker-

chiefs, pen wipers, cushions, purses, aprons, baseball caps, bonnets, dresses, collar and cuff sets, babies' clothes, baskets, etc. Many of the boys took a special interest in the raffia and cane work.

The Teachers' Patriotic Fund gave a web of drill, which was made up into middies for girls from ten to fifteen years of age. Cutting from pattern was taught, texture, weave of material, economy of material, and the value of honest work, even though it did not show on the outside, was strongly impressed on the children, as it is well for the children to at least try to attain to a high standard.

On the earlier opening of this school since 1914, Miss Jessie L. Jamieson, the Principal, reports as follows:—

"The plan of opening the Vacation School immediately on the close of the regular school proved of great advantage to both the children and the staff. To the children, because they invariably expect that they can present themselves at the Hester How School the first day of the holidays, and find some form of hand work which they can pu sue. Should they find the school closed, they become discouraged, lose touch with the school as a centre, and a week or more of time is lost before the news of the opening of the Vacation School is known throughout "the Ward." With the early opening over four hundred children presented themselves the first day."

This school is performing a very important social service among the many children of foreign extraction who are in attendance. The growing attendance is a testimony to the need it is endeavouring to meet. Special stress is laid on the inculcation of habits of neatness and cleanliness and the use of good English. The discipline is of a healthy and spontaneous nature, based on interesting occupation, guidance of the instincts of personal freedom and cultivation of respect for the rights of others.

REPORT OF SUPERVISOR OF MILITARY DRILL, COL. JOHN T. THOMPSON, R.O.

The work in the several schools is uniformly successful and continues to improve.

The annual parade held May 23rd, the Empire Day demonstration, was most successful, the total number of Cadets on parade being four thousand four hundred.

The Honourable Sir Sam Hughes, Minister of Militia, expressed his high appreciation of the excellent work and soldierly spirit displayed by all the Cadets, and the very marked improvement in the work.

The annual inspection and competition of the Cadet Battalions was held on May 29th, 30th and 31st, by Major James Wayling, O.I.C., Military Division No. 2. The report of the inspecting officer was highly satisfactory.

RIFLE SHOOTING

The annual rifle shooting was held during the months of January, February, March and April.

Strathcona Trust awards in Military Drill and Rifle Shooting are as follows:

MILITARY DRILL

REPORT OF SUPERVISOR OF MUSIC, MR. LLEWELLYN REES

Satisfactory progress has been made in Sight-singing, Part-singing and Tone Production, and there has been among the teachers generally a greater recognition of the importance of Ear-training—otherwise musical appreciation. This leads to a better blend and balance of parts and to finer expression and interpretation in the rendering of the songs.

During the past year the favourite songs of the pupils have been the patriotic songs of the British Empire and the songs of the Allies.

Four Teachers' Classes were organized for the purpose of giving instruction in Theory, Singing and Methods to the Regular and Occasional Teachers after school hours. An Occasional Teachers' class on Mondays and a Regular Teachers' class on Fridays, both in charge of the Supervisor and two Regular Teachers' classes on Fridays in charge of the Assistant Supervisors.

The Empire Day concert was well patronized by the general public and the singing of the children received great praise from the music critics of the press. Six thousand voices were tested and eleven hundred selected, for the concert chorus. All the selections rendered were by composers of British origin.

Twenty-six schools entered competitors in the Preliminary Solo Competition, eleven schools in the double trio, and six schools in the choir contest.

Dr. A. S. Vogt, Mr. A. T. Cringan, Mus. Bac., and Mr. Frank Welsman acted as adjudicators in the Preliminary and Final Competitions.

The Final contestants were:—

SOLO COMPETITION

1st prize, gold medal, Ethel Witherspoon, Kent School.

2nd prize, silver medal, Marsh Magwood, Manning Avenue School.

DOUBLE TRIO COMPETITION

1st prize, Hiltz Shield and six silver medals, Perth Avenue School Double Trio, trained by Miss Anna J. Hunter.

2nd prizes, six silver medals, Howard Park School Double Trio,trained by Miss Thompson, and six silver medals, Williamson Road School Double Trio, trained by Mr. W. Bryce, B.A.

CHOIR COMPETITION

1st prize, Simpson Shield, Perth Avenue School Choir, trained by Miss Mae Skilling.

2nd prize, Kent School Choir, trained by Miss Birdie C. Johnston.

REPORT OF SUPERVISOR OF ART, MISS JESSIE P. SEMPLE

The general aims of Art instruction are to train observation, to cultivate good taste and creative power and to develop skill in expression with suitable mediums

The work is arranged according to seasons so that available material and the interests of the pupils may be considered. The work of one season either directly or indirectly has its influence on that of the next. Nature drawing in the fall is made the basis of decorative design in the early winter, and, later, the drawing from manufactured objects, where careful observation and accuracy of drawing are the chief aims, has its effect in making more truthful the work from nature which follows in the spring.

The work during the year has made very satisfactory progress, especially that in decorative design in senior classes. I feel that this department of the work should be emphasized both because of its educational value and because of vocational outlook for the future after the work has been more specialized in our Technical Schools. Professional designers for various manufactures, and artist-artizans in all departments of hand and machine work should be made ready so that not only honesty of workmanship but beauty in form, colour and design may mark the character of our products. Intelligent good taste in a people is a national asset, and largely depends on the early work in public schools.

In junior classes the work in illustrative drawing continues to improve, and teachers are using this means of expression very freely in correlation with other school

subjects. The colour work in these classes shows keen observation and reaches noticeable excellence in Form II Senior.

The voluntary classes for teachers held in Ogden School on Saturday mornings have been well attended, sometimes to more than seating capacity. The work in these classes follows closely the course for the year, so that teachers may receive help in the line of their immediate needs. Much credit is due to those teachers who so willingly give of their own time for this important work. The results in their classes prove the value of this extra effort. Saturday classes for occasional teachers were also well attended.

All classes were supervised four times during the year, and some classes had special visits when necessary.

The annual exhibit of pupils' Art work was displayed at the Canadian National Exhibition. The work was arranged to show development from grade to grade and from season to season. Many visitors, especially parents and teachers, were interested in the display. This exhibit may be seen at Ogden School, where it was placed at the close of the Exhibition.

Several classes competed for the prizes so generously offered by the Canadian National Exhibition, and the following were successful:

First Prize, Form IV., Senior—Kent School.

Second Prize, Form IV., Senior—Dewson Street School.

First Prize, Form III., Senior—Brock Avenue School.

Second Prize, Form III., Senior—Earlscourt School.

Many pupils received individual prizes.

REPORT OF SUPERVISOR OF PHYSICAL CULTURE, MISS BERTHA F. SRIGLEY

The work in Physical Training, as carried on in the classrooms during the year of 1915, was, for the most part, satisfactory. Where this work is conscientiously done, the pupils are acquiring habits of self-control, alertness, promptness, obedience, and attention; and in many cases the improvement in the physical fitness and postures of the children is most marked.

Expressions of appreciation from parents concerning the effects of the Physical Training in the schools are numerous, and many teachers find that the regular use of the Strathcona system is not only a great aid to discipline, but improves the general work of the class.

During the year the classes were each visited three times and those in need of special assistance more frequently. My assistant, Miss J. I. A. Archer, visited the first and second classes, while I went to the thirds, fourths and commercials. On the first and second visits to the schools we took charge of the classes, teaching lessons, correcting positions or exercises where necessary, giving praise for good results when accomplished, explaining the uses of exercises and encouraging further effort. During the last visit of the spring term, as in 1914, the teachers conducted their classes which were marked by the supervisors for the Strathcona Competition. The improvement in the self-control shown by the children during this competition, as compared to that shown during a similar contest in 1914, was very encouraging.

The present system of competition has proven most successful, in that all the children able to take part in the exercises receive the benefit of the work, and in order that a class may obtain a high standing, the pupils most in need of improvement must get the most attention. The competition also gives the children an added incentive to work, and in most schools their interest and enthusiasm has been inspiring.

The results of the competition were as follows:—

CITY PRIZES

First—Frankland.

Second—Winchester Street.

Third—York Street.

DISTRICT PRIZES

District 1—Frankland, Withrow, Williamson Rd., Norway and Balmy Beach equal.

District 2—Winchester, York, Rose, Sackville.

District 3—Ogden, Brown, Huron, Hillcrest.

District 4—McMurrich, Kent, Givens, Jos. Workman.

District 5—Perth, Keele, Western, Annette.

In May, an Exhibition of Physical Training was given in the Arena Gardens, the proceeds of which went for Patriotic purposes. In this exhibition about one thousand children participated, some of which were trained by their teachers after school hours and some by Miss Archer and myself in our free classes, after school and on Saturday mornings. Through the courtesy of Col. Thompson, a company of Cadets from Winchester Street School made a very attractive part of the programme. The exhibition was, on the whole, a success.

Classes for teachers were held in several centres during the fall and winter terms, and a large number of teachers received a very beneficial course, the results of which show most plainly in the added ease and precision with which their work is done. A great many teachers are still in need of assistance, and the large number of new teachers being added to the staff makes a constant supervision necessary.

I would respectfully suggest that some provision be made for the simple corrective treatment of those children so much in need of it, who cannot, in the regulation time, get sufficient setting up exercise to correct advanced cases of round or drooping shoulders, hollow chests, etc. Also, I should like to suggest that if classes in Folk Dancing, rhythmical marches, etc., could be arranged for Senior girls, while the boys of their classes are at military drill, great improvement might be made in the postures, grace, poise, and self-control of those girls who get practically no exercise outside school hours, and to whom the regulation time is a very scant allowance.

COST OF MAINTENANCE

The total cost of maintenance of the public schools for the year 1915, as reported by the accountant, was $2,153,754.48. Inquiry into the methods followed in past years in calculating the annual cost of maintenance per unit of attendance or registration shows that exact results were not obtained at least since the extension of the auxiliary activities of the public schools. Only through a sufficiently detailed system of functional accounting can the per caput cost of each department of public school work be determined. The total cost of maintenance given above includes not only the usual daily activities of the public school, but also such other activities and matters as cadet corps, supervised playgrounds, forest schools, vacation schools, night schools, superannuation allowances, school nurses for vacation playgrounds, supplies for departmental examinations, etc. This expenditure is therefore greater than the total cost of the day school work and much greater than the net cost of same to the public school supporters of Toronto, as to find the latter it would be necessary to deduct not only the cost of the extraneous activities but also the sum of the revenues including government grants.

The fact remains that the outlay for public school maintenance on all counts was over two million dollars and that for this expenditure the main return was the equivalent of one full school year of education for each of 49558 pupils. Neglecting the value of the auxiliary activities such as night schools, vacation schools, etc., and charging the whole outlay to the regular day schools the amount paid for one full year of schooling per pupil would be $43.45.

Still this cost would compare favourably with that of the public schools of Detroit, Buffalo, Pittsburg, San Francisco, Boston and numerous other American cities about the same size as or larger than Toronto.

Estimating the cost in Toronto on a similar basis for the past three years the results are as follows:—

Cost per pupil (daily average attendance)	1913.....	$43.76
" " " " " "	1914.....	$43.59
" " " " " "	1915.....	$43.45

PROMOTIONS

While promotions are more or less general at the end of each term, it is also the practice to promote, at any time during the school year, capable pupils who would suffer by delay. Capacity, maturity and attainment are recognized in the standard of promotion.

The results indicated in the foregoing tables may be summarized in a general way as follows:—

Total number of pupils at promotion time in June (Kindergarten to Fourth Form)		57,638
Number promoted in June or not yet due for promotion	46,816 or 82%	
Number not promoted for reasons of mental standards and attainments	5,706 or 10%	
Number not promoted owing to interrupted attendance, etc	3,048 or 5%

MANUAL TRAINING, ETC.

The syllabus prescribed for the public schools of Ontario offers a larger provision for manual courses than has yet been applied by any school board in the Province. The public schools of Toronto are making some progress in the extension of this work to the classes of the First, Second and Third Forms. For some years the standard courses in Manual Training and Household Science have been taken up as systematically as possible under the conditions in classes of the Fourth Form. To place these subjects on a proper basis in the classes of the other forms will require a considerable outlay for equipment and materials. Special short courses in the work will also be necessary for some of the teachers.

The following summary as to the teaching of Manual Training and Household Science in the First, Second and Third Forms throughout the public schools of the city has been compiled from special reports obtained from the principals in June:—

Total number of classes of Forms I, II and III...	995 classes
Number in which the Manual Training course is taught by the regular teacher.....	909 classes
Number in which the Household Science course is taught by the regular teacher.....	519 classes
Number of teachers who have received some training for this work.....	906 teachers
Number of teachers who have not received such training.....	49 teachers
Number of teachers whose training for the work is reported as apparently adequate	648 teachers
Number of teachers reported as requiring some additional training.....	307 teachers

FEEBLE MINDED PUPILS

The principals report only 116 of the nonpromoted pupils as being feebleminded. This refers to all the standard public schools of the City and is exclusive of the classes conducted in the custodial institutions. While expert opinion might add to the feeble minded group a number of those whom the principals have classed as of low mentality, it is evident that the total number of such pupils is comparitively small. A special report obtained from the principals some two years ago gave a total of 204 feeble minded pupils and 253 borderline cases. Assuming that fifty per cent. of the latter were actually feebleminded the total number of this type would be only 330 pupils.

Dr. Helen MacMurchy has recently made a general computation that there are about 7700 feebleminded persons of all ages in the Province. On this basis the number of such persons in Toronto should be about 1540. As barely one-sixth the population of Toronto is enrolled in the Public and Separate Schools of the city, ten-elevenths of the total number of pupils being in the public schools, the number of feebleminded pupils attending the public schools would be approximately 233, assuming that the feebleminded attend in as great proportion as the normal pupils. Obviously this is not the case.

At present the Acting Chief School Medical Officer is conducting an investigation into all cases of apparent or suspected subnormal mentality with a view to arriving at a more definite estimate of the problem involved.

In the meantime, if the inconvenience of the presence of feebleminded pupils is not very great, their removal from the regular classes would be advantageous, and, in some particular instances, a great relief to the classes concerned.

The problem of the feebleminded cannot be dealt with comprehensively and effectually apart from permanent custodial provision. This lies beyond the sphere of the public school. But the number of feebleminded children of school age in Toronto is not so large that suitable day school provision might not be made helpful to certain selected types at no great cost. The power to remove pupils from the regular classes, the power to select pupils, and the power to discontinue the attendance of certain pupils under certain conditions are matters appearing to require more explicit regulation. The permissive legislation provided in the Auxiliary Classes Act affords scope for initial action by school boards. At the same time the Board of Education could better fulfil its part if a comprehensive scheme of provincial action were first determined. Local day school provisions are adequate for only a portion of the school life of the feebleminded.

ADMISSION TO THE TECHNICAL SCHOOL

Potentially the most important event in many years in the history of Toronto Public Schools was the opening of the new Central Technical School last autumn. The full measure of benefit to elementary education is largely a matter for future realization. But the occasion is now at hand for a policy of direct, extensive and explicit relationship between the technical school and all the public schools of the City. Such a relationship with the high schools has existed and has been steadily nurtured, whether voluntarily or by force of circumstances, for forty-five years.

The School Law of Ontario does not permit of vocational schools being conducted in connection with the public school system, nor modification of the public school course along vocational lines, in places where the Board of Education has established a technical school. But it is provided under The Industrial Education Act that

pupils who have completed the course for Form III may take certain courses provided by the Advisory Industrial Committee. According to their circumstances and their faculties it would appear to be in the interests of a large number of pupils to pass from the Third Forms of the public schools to the Technical School. There are also other pupils who would probably become more valuable members of the community if they were to gravitate toward the Technical School rather than to the High Schools.

It may be urged that to encourage the migration of Third Form pupils to the Technical School would be to greatly weaken the upper classes of the public Schools and seriously impair their efficiency. Even if the numbers in the Fourth Forms were greatly reduced as the result of such a policy, that need involve no educational loss whatever. The aim of the public school is the better realized in every pupil who spends at least a year or two in any of the secondary schools of the City, whether High School or Technical School.

There are those who hold that we should speed the average pupils through the public schools at such a rate that they will be ready to enter the high schools at the age of twelve. This contention is supported by the widely accepted opinion that the study of the languages should begin not later than at twelve years of age. Some make a similar claim in respect to training the motor activities.

Unless it can be shown that pupils graduating from the Third Form are still too young to commence a general industrial course, what valid reason is there to deny to the people who provide the schools a free choice of alternative courses for their children? And as this opportunity is new should it not be brought specially and widely to public attention?

What are the facts as to the ages of pupils in the senior divisions of the third forms of the public schools of the city? Just prior to promotions in June there were 5272 pupils in the senior third forms. Of these 1662 were 13 years of age and 1248 were 14 years or older A comparison of the ages of pupils of Senior Third and Junior Fourth Forms indicates that of the 1662 pupils now 13 years of age about 500 will drop out before the

end of another year, and of the 1248 pupils 14 years or over, nearly 700 will drop out. Here is a body of 1200 pupils from which by systematic co-operation many desirable recruits might be obtained for the Technical School without prejudicially affecting the proportion of pupils passing into the Senior Fourth Forms of the Public Schools. The attendance of pupils under 14 at the industrial courses would be compulsory as in the case of the public school courses, and the elements of an English education would also be continued.

ADMISSION TO HIGH SCHOOLS

In 1914 a notable departure was made respecting the admission of pupils of the public schools to the High Schools of the City. In that year for the first time the great majority of the candidates for High School Entrance were granted admission on the recommendation of their principals. Entrance Certificates were granted to 1261 candidates on the recommendation of the principals. Of those who were not recommended 676 wrote on the examination and 295 of these passed.

Again in 1915, Entrance certificates were granted to 1515 candidates on the recommendation of their principals, while of 612 candidates who wrote on the examination 290 passed.

In June 1916 certificates were granted to 1674 candidates on the principals' recommendation, while of 609 who wrote on the examination 197 passed.

Thus in the past three years 5232 pupils obtained High School Entrance certificates and 4450 of these, or 85 per cent., were granted the certificates without being required to write on the Examination.

As to the age and efficiency standard of pupils on admission to High Schools the following figures are indicative of existing conditions. On the last occasion on which all candidates for admission to High Schools in Toronto were required to take the written examination (June 1913) the successful candidates numbered 1510. The numbers according to their ages and average marks were as follows:—

Age	Number of pupils	Average marks obtained
Under 12 years	6	448
12 "	112	454
13 "	360	449
14 "	546	443
15 "	350	434
16 "	120	433
17 "	10	422
Over 17 "	6	415

While the foregoing numbers centre round 14 as the present standard age for passing the High School Entrance Examination, the highest average of marks was made by the pupils 12 years of age, with a gradual diminution of marks as the age increases.

Of 4871 pupils who passed the High School Entrance Examination in 1913, 1914 and 1915, only 1087 remained in the same school throughout their public school course from Kindergarten or First Form up to completion of Fourth Form, while 3784 or 77 per cent. of these pupils changed school during their course.

Of these 1087 pupils, 675 or about 60 per cent. entered at Kindergarten and 412 or about 40 per cent. entered at First Form.

As to their ages when they entered school, 434 pupils or about 40 per cent. were 5 years old, 394 or about 36 per cent., were 6 years o d, 202 or abou 19 per cent. were 7 years old, and 57 pupils or about 5 per cent. were 8 years old.

The following tabulation suggests some comparison between those entering at Kindergarten and First Form on the one hand, and on the other hand, among those commencing school at 5, 6, 7 and 8 years respectively.

Number of pupils	Entered at	Age entering	Time taken to complete course	Age passing Entrance
382	Kindergarten	5 years	8 yrs. 9 mos.	14 yrs. 2 mos.
52	First Form	5 years	8 yrs. 5 mos.	13 yrs. 11 mos.
222	Kindergarten	6 years	8 yrs. 0 mos.	14 yrs. 5 mos.
172	First Form	6 years.	7 yrs. 7 mos.	14 yrs. 1 mo.
50	Kindergarten	7 years	7 yrs. 6 mos.	14 yrs. 10 mos.
152	First Form	7 years	7 yrs. 2 mos.	14 yrs. 6 mos.
21	Kindergarten	8 years	6 yrs. 9 mos.	15 yrs. 1 mo.
36	First Form	8 years	6 yrs. 8 mos.	15 yrs. 0 mos.

SCHOOL STATISTICS AND SCHOOL EFFICIENCY

Though no general conclusion of a very positive nature can be drawn from figures collected within so narrow a compass of time and numbers, the foregoing and other statistics of this report are submitted as illustrative of some of the lines along which school statistics may be suggestive of trends and conditions, particularly to those who are in a position to consider them in the light of an adequate knowledge of the internal circumstances of the various schools. In varying degrees such use of statistics has long been made by principals and inspectors, but no statistical standard has been set up at any time in Ontario as a general criterion of the efficiency of the public schools. The courses of study, the character of accommodations and equipment, the qualifications and duties of teacher, the duties and powers of trustees are all very definitely prescribed by the Provincial Government which provides also a comprehensive system of inspection by trained and experienced educators specially certificated for the purpose. Every Inspector is directly responsible to the Minister of Education for the due performance of his duties.

The Minister also appoints a Provincial Chief Inspector through whom and the local Inspectors, direct contact with all the elementary schools of the Province is maintained.

The Provincial Government is therefore responsible, directly and actually, for the general nature and efficiency of the school system in every part of the Province. The members of school boards exercise administrative not constructive powers. They are trustees to whom is committed the duty of carrying out an important trust clearly defined in the school law.

Thus the criterion of efficiency is not locally determined as in many places in the United States. It is provincially prescribed. That criterion is virtually the expert judgment of the supervising authorities. There can be no local modification of this standard or substitution for it.

MEASURES OF SCHOOL EFFICIENCY

During the past decade many cities of United States have spent considerable effort in the endeavour to arrive at some standardized test of school efficiency. No little incentive to seek such a prop for the responsibility of official opinion may be found in the conditions of municipal strife and party politics with which the selection of American school superintendents is sometimes associated, a condit on most fortunately unknown in Canadian administration of schools. The tendency to so measure the merit of the schools is also in some part a reflex action of the present day passion for commercialism and material thrift, and the standards of judgment thereby encouraged. To a good extent also it is based on a desire to find a means of placing clearly and succinctly before the people, from time to time, a fair account of the progress of public education.

Among the dangers to be recognized in the attempt to measure school efficiency in quantitative terms is over-emphasis of the certitude and the importance of the results apparently indicated, abstraction of the attention of teachers from the spiritual element in their work, and the promiscuous substitution of a more or less artificial and dehumanized standard for the responsible personal judgment of the experienced educator.

At the same time it should be recognized that there are fields in which school statistics may be usefully employed in representing certain conditions and results. The classification of school receipts and expenditure according to the special object in each case makes it possible to furnish definite information as to the cost of the various school functions. Records of school attendance, ages and progress in various forms, dropping out before completion of the course, markedly slow progress and other statistical data are of interest at least to those directly occupied in the work of the schools. Certainly also some of these conditions are of great importance to the individuals directly concerned and of too unrecognized importance to the public, so much so that every decent means of awakening a more general public interest may render valuable service to education.

If, however, the collecting of statistics is allowed to occupy materially the time of teachers the possible ultimate advantages will be offset by the immediate actual loss. In some of the American cities where the enthusiasm for studying school statistics and measures of efficiency is at present greatest, special officials have been appointed for the work. The Board of Education of Rochester has an Efficiency Bureau. New Orleans has a Department of Educational Research, Baltimore has a Bureau of Statistics and Research, and New York a Bureau of Reference and Research.

In the investigations conducted by these cities, and in school surveys generally throughout United States, three measures of efficiency have been kept in view:— Measurement by personal opinion, measurement by comparison and measurement by recognized standards.

As little progress in establishing standards has been made thus far by "efficiency experts", measurement by standard units is of no general acceptance, though there are enthusiasts who consider they have worked out adequate standard tests in individual subjects.

Measurement by comparison will always have its assuring or disturbing effect as a means of indicating relative progress. Yet at best comparison will indicate only more or less. It can never guarantee that any school condition is in itself adequate or inadequate.

Measurement by personal opinion is the standard recognized in Ontario. The value of this standard depends upon the ability of the person to form an intelligent judgment. This condition is safeguarded in Ontario by the qualifications required of all inspectors of schools. While the standard of personal opinion is not an infallible measure it has the advantage of being able to include all the merits of the other standards.

A fourth measure of school efficiency, possibly overlooked because not manifestly applicable to the immediate conditions of any particular case, is that of ultimate results,—the kind of men the schools have helped to produce. To estimate a school system in the large the ultimate results must be considered. In the debate on education in the British House of Lords last

July this was the measure applied in general defence of English educat on. Similarly seventy years ago Lord Macauley extolled the parish schools of Scotland on the basis of ultimate results. The universities and the great public schools of England continue to hold their place in the esteem of the nation on the standard of ultimate results. Largely by this standard in times of crucial test the merits of school systems and all other fabrics of the social order will still be judged. Whatever the measure of worth, it is vital that moral values be placed first. Where the teachers truly sense the moral aspects of their work it cannot be ill with any school. Where this higher vision is wanting it cannot be well with the school. While numerical and quantitative tests of school efficiency and progress are of value to educators, though of little immediate esteem with the general public, the profound interest of teachers should centre on considerations of human nature, personality, character and individual circumstances in a degree equitable toward all pupils.

SCHOOL ACCOMMODATIONS

Within the decade prior to 1907 only 9 new schools were erected in the city, many of the schools then in use had reached the limits of their service and Toronto was about to receive the largest increase of population in the history of the city. Since 1907 the population has almost doubled while the increase in the school attendance has exceeded that of the preceeding half century.

During this period (1907—1915) there has been carried out a vigorous and extensive building programme which constitutes a remarkable achievement on the part of the school building department. At present there are 85 standard public school buildings in use or on point of completion. These include 34 entirely new schools, 33 others that have been rebuilt or enlarged, and 18 older schools which have been maintained in good condition and some of which will be superseded within the next year by modern buildings now nearing completion.

While this heavy programme of school construction has involved a very large expenditure this has been

necessitated partly by the unprecedented increase of population and partly because many of the old school buildings had reached the limits of their usefulness.

As the classroom accommodations are now almost abreast of the demands in nearly all parts of the city it will be possible o provide for the future growth of the school population, with diminished burden on the taxpayer, if there is no abatement in the policy of progressive school construction.

An excess of ten per cent. in the number of classrooms over the immediate requirements is the smallest margin safe to maintain under ordinary circumstances in Toronto, while to meet the conditions likely to arise after the war larger requirements should be anticipated. Financial and educational economy alike require that the school building policy be systematically progressive, avoiding as far as possible marked lapses or increases during any period of years.

THE SCHOOLS AND THE WAR

A general account of the part taken by the teachers and pupils of the public schools in relation to the great war can only be given after the advent of peace. In the meantime as a matter of record reference is made to the enlistment of teachers.

Of 161 male teachers including 74 principals on the permanent staff of the public schools 60 have joined the Canadian Expeditionary Forces and 11 others who offered their services have been judged unequal to the strain. From among those remaining who are within military age enlistments are still taking place from time to time. Following are the names of those who have been granted leave of absence by the Board of Education and who are now either on active service at the front or are in training with their respective units:—

TORONTO PUBLIC SCHOOL TEACHERS ON LEAVE OF ABSENCE IN WAR

Archibald, Mr. A. W.	Dufferin School
Armstrong, Mr. H. E.	Carlton School
Atkinson, Mr. W. L.	Brock Avenue School
Blaney, Mr. R. J., (Principal)	Frankland School
Boulding, Mr. C. R.	Alexander Muir School
Buchanan, Mr. W. P.	Carlton School
Burt, Mr. A. C.	Manning Avenue School
Cameron, Mr. R. C.	Winchester Street School
Carpenter, Mr. T. T.	Manning Avenue School
Carruthers, Mr. O. K.	Manning Avenue School
Clark, Mr. W.	Frankland School
Daniel, Mr. T. E.	Dewson Street School
Dickson, Mr. A. C.	Grace Street School
Doherty, Mr. W. J.	Givens Street School
Elliott, Mr. A. H.	Pape Avenue School
Elliott, Mr. F. W.	Bolton Avenue School
Fick, Mr. E. L.	Pauline Avenue School
Forsyth, Mr. G.	Dufferin School

LIST OF TEACHERS, THEIR CERTIFICATES AND THE DATE AT WHICH THEY ENTERED THE SERVICE OF THE BOARD

NAMES	CERTIFICATES	ENTERED SERVICE OF BOARD (LAST TIME)
PRINCIPALS		
Armstrong, Mr. D. W	1st	January, 1906
Bennett, Mr. J	**2nd A	April, 1888
Blaney, Mr. R. J	2nd	June, 1903
Brennan, Mr. J	2nd	January, 1901
Brennan, Mr. R. W	1st C	October, 1894
Brown, Mr. J. A	1st	October, 1901
Brown, Mr. J. S	2nd	September, 1906
Brownlee, Mr. T	2nd	January, 1895
Bryce, Mr. W	1st	September, 1896
Bulmer, Mr. J. R	1st	January, 1899
Burger, Miss A	2nd	March, 1889
Carr, Mr. H. P	**2nd	September, 1895
Cherry, Miss Mary E	2nd	January, 1891
Colvin, Mr. J. H	1st	September, 1902
Colvin, Mr. W. N	1st	September, 1903
Currie, Miss L. M	2nd	July, 1883
Davidson, Mr. D. M	1st	January, 1907
Dodds, Mr. A. C	1st	February, 1908
Doan, Mr. A. W. R	1st	September, 1906
Elliott, Mr. E. H	2nd	January, 1901
Elliott, Mr. R. G	1st	May, 1902
Evans, Mr. J. J	1st	January, 1896
Fallis, Mr. L. K	1st	January, 1901
Farmery, Mr. W. J	2nd	September, 1895
Fawcett, Mr. J. E	2nd	September, 1903
Ferrier, Mr. Chester	1st C	October, 1886
Fraser, Mr. C. G	2nd	October, 1895
Fydell, Mr. M. R	1st	March, 1909
Grant, Mr. W. H	1st	September, 1905
Griffin, Miss J. B	2nd	January, 1889
Groves, Mr. W. E	1st C	September, 1890
Hancock, Mr. E. W	1st	September, 1905
Hannah, Mr. W. D	1st	November, 1904
Harwood, Mr. W. H	1st	September, 1908

**Non-Professional 1st C.

Respectfully submitted,

R. H. COWLEY, Chief Inspector.

Chief Medical Officer's Report

BOARD OF EDUCATION, TORONTO

DEPARTMENT OF MEDICAL INSPECTION

To the Chairman and Members of the Board of Education

Gentlemen,—I have the honor to submit herewith my first annual report as Chief Medical Officer, it being the fifth annual report of your Executive Officer since the Department was established. I feel I ought to express my appreciation of the confidence in myself manifested by your body in appointing me to undertake the responsible duties attached to a position which must necessarily have such a far reaching effect upon the welfare of the children of our Public Schools.

I count myself fortunate that I succeeded to the office immediately after Dr. Struthers whose faithful and skilful performance of the duties of the office have not only wrought great benefits that will be lasting for the generation of pupils that existed in the period of his inspectorship but have been of great value to myself in my endeavor to carry on the work on lines that should lead to a continuance of those beneficial results.

In common to every sphere of life and effort, schools and all departments thereof have shared in the dislocation occasioned by the war. The dislocation in my own department is evidenced by the fact that the staff have contributed or have on active service, three Medical Inspectors, one Dental Inspector and six School Nurses. I most cordially sympathize with the desire and decision of these members of the staff to answer as they did, the call to duty among the wounded and stricken soldiers of Canada and the Empire. I must express my appreciation for the loyal manner in which the remainder of the staff so loyally thus disorganized has coped with and carried out the extra work that has inevitably devolved upon them. On them, not less than upon others in similar lines of work, the way and consequent dislocation have imposed not a few difficulties and an added physical and mental strain and I am glad to pay tribute to the loyal and self sacrificing spirit in which they have met this extra strain. When we remember the effect the spirit in which work is under-

taken has upon the work and upon permanent results, I feel sure that in the last analysis it will be found that the results of this "war strain" were not inimical to the best interests of all concerned.

During the year I officially visited the United States with a view of acquiring a first hand knowledge of the working out of the latest efforts and experiments in the schools of the larger cities of the Republic in connection with open air work. I visited New York, Philadelphia Rochester, Cleveland and Buffalo. I found that across the line, at least in these cities, there is the same keen appreciation of the value of open air schools that we have of recent years attached to them in Toronto.

While on my visit, I saw no open air schools as interesting as our own Forest Schools, yet in some of the cities they are using the roofs of buildings and other open spaces to get the same results for pre-tubercular anaemic, and ill nourished children. In others they use ordinary class rooms, with the windows so arranged that in a few minutes the room can be converted into practically an open air school. In a large school, in one of the cities I visited, they used open window ventilators in every class room.

In all these cases the results were the same. The children increased rapidly in weight, have not complained of uncomfortable draught, have enjoyed school life in every respect, have become more alert and advanced more quickly in their studies. Our own open air schools have taught us this fact. But their greatest service is not the good that can be accomplished in them to the few children at a considerable per capita expense but to the fact that they most emphatically teach this lesson viz,—all our school children may receive the greater part of this benefit at very little additional cost by adopting the wide open window ventilation. Our duty is to place the child while in school in the most healthy environment so that he may make the greatest possible mental and physical progress.

FOREST SCHOOLS

The Forest Schools at Victoria Park and High Park were opened for six months during the summer from the middle of May until the middle of November.

The appropriation for these schools is based upon having a daily average attendance of 100 pupils at each school during the season. In order to maintain this average, we selected 125 pupils for each school. Medical Inspectors were asked to submit a list of pupils in each school whom they thought were fit subjects for open air treatment. These children were divided into four classes and chosen in the following order.

1. Those who have closed Tuberculosis. No open cases of Tuberculosis are allowed.
2. Those who have Tuberculosis in the home.
3. Those who have a hereditary tendency to Tuberculosis.
4. Those who are anaemic, ill-nourished with poor home surroundings.

The names of 600 pupils were submitted and we were only able to accommodate about 250. This will give you an idea of the great need for more open air schools. The attendance at these classes was variable. During the first two months the average was slightly over 100 but during July and August it fell to 85. This was due to several causes. First because some of the children refused to attend school when other children were having holidays. Second, the novelty of the school had worn off to some extent and thirdly because many children were sent to the country during these months by charitable organizations. The first two conditions could be overcome if some compulsory law was passed, compelling the attendance of these children. It would also be a great advantage if the services of a Truant Officer could be had during the summer months. The last could be remedied if all fresh air organizations were notified of the names of the children attending these schools, and by sending other children to the country an overlapping of charity could be prevented. The necessity for regular attendance is very great, for the

improvement was much more marked and most persistent in those children who were regular in their attendance.

Of 159 pupils registered during the summer at High Park Forest School, 70 were of Jewish parentage or about 44%. The Total percentage of foreign born was 61%.

Considering these schools from the standpoint of the child's health and his physical and mental development, I have no hesitation in saying that they are an unqualified success. A marked general improvement was noticed in vigor and activity, in mentality, in weight and physical bearing, in manners and deportment. Children, who were listless and slow in movements, before the season ended responded to a sharp call to attention and to physical drill with a promptness and precision of movement which was impossible at the beginning of the season.

In a large percentage of the pupils, the mentality increased in a few months at least a grade, much of the backwardness seemed to be due not so much to an inherent mental deficiency but rather to the fact that they had not enough vigor and strength for both physical and mental growth. Teachers have told me of pupils who were "repeaters" in their grade, after a season at a Forest School were able to advance normally in their studies.

Practically all the children gained in weight. In High Park Forest School, the average gain per child was 5½ pounds. Two children gained nine and seven pounds, one child sixteen pounds and one hundred children gained from 4 to 17 pounds.

In Victoria Park Forest School, the average gain per child was 5 1-3 pounds, one child gained 20 pounds, one 15 and one 13 pounds. Sixty children gained from 4 to 20 pounds. Two children lost in weight.

One of the unique and beneficial features of the Forest School is the contact with nature. The love of flowers and birds is manifest in all the children, particularly in the city waif, whose opportunities of studying nature are very limited. In the Forest Schools we have unbounded opportunities for the study of nature. Here the child comes in contact with wild flowers, birds,

squirrels, bees, yellow jackets and a host of other natural phenomena. Here is unbounded opportunity for free and uncongested play on grassy sod under shady trees. Here for a time the child may leave the hot, germ laden air of the city and breathe for a time the pure cool air of heaven, all of which cannot but be beneficial to the child's physical, moral and mental growth. I would like to see a plot of ground set aside at each Forest School as a garden. Here the children could be taught the cultivation of flowers and vegetables. Where this has been tried on a small scale, it is surprising the interest the children take in the work.

Many of the children in attendance come to school dirty and there is no bath. Shower baths should be established, not only for the purpose of bathing these children who need it but for the purpose of educating all children in habits of personal cleanliness. There is one objection that can be raised against the Forest School and that is the cost. Our experience has been that the cost per pupil per month is about $10. The most expensive item in running the school was the food including its cost, preparation and necessary equipment. Undeniably the food was good and the children were greatly benefitted but it was nevertheless true that food was furnished to many children whose parents were able to to furnish it for them. We furnish the children with breakfast, dinner and supper as well as a lunch in the middle of the forenoon and afternoon.

There is no reason why these children could not have breakfast at home and then come to school at 9 o'clock instead of 8 o'clock. They could then be given a good hot dinner at noon, a lunch in the forenoon and afternoon and arrive home for supper about 6 o'clock. In this way, the expense could be considerably reduced without affecting in any way the benefit received by the children.

Again there is another matter which should be considered in this connection. We keep the children in these schools, building them up mentally, morally and physically for six months and then in the Autumn we send them back to their old home conditions which are nearly always bad, and to their ordinary school class room. We cannot help but lose during the winter

months a large percentage of the good we have done during the Summer. In order to obviate this we should have a few open air class rooms distributed throughout the City where we can send these children in the Winter and in this way follow up the good work done during the Summer.

SCHOOL LUNCHES

In Toronto the matter of school feeding has been brought to my attention during the last three or four years. Principals of schools, especially those in the poorer districts, have told me repeatedly that many children come to school very poorly nourished owing to insufficient and improper feeding. This is due to poverty and partly to carelessness and indifference on the part of the parents. Children coming to school in this condition are not able to make the best uses of their educational advantages. The little mind is not able to absorb knowledge when its body is anaemic and ill nourished and the stomach craving for food. Does expenditure for the education of these children yield the greatest results?

In order to show the value of School Feeding, Dr. Roach of Boston a few years ago experimented with a class of 100 under-fed children. During the morning when those subjects are taught which require the greatest mental effort, these children were given a lunch. This was continued for five weeks and at the end of that time, these children had averaged a gain of two pounds in weight and a gain of 10 per cent in their academic work.

In nearly every large American city school lunches have become a definite school proposition. In England school lunches were instituted many years ago. Here all necessitious children are fed free. In the American cities food is sold at cost price, usually about a cent a portion. A private fund takes care of those children who require feeding but are unable to pay. I prefer the American system for many reasons.

Opponents of school lunches claim that it is not the function of Boards of Education to provide food for pupils, that the school is for educational purposes only and not for those activities which actually belong to the

home. They believe that it has a tendency to take the responsibility from parents and puts a premium on parental neglect and that parents may become indifferent to their home duties. This to some extent may be true but school lunches not only provide the child with a properly selected diet at a minimum of cost but gives him a certain education. It teaches him the value of money, the desire for and the proper selection of good food which if reflected in the home will result in better feeding not only for the child but also for the other members of the family. If we are going to have children grow up with sturdy bodies and active minds we must educate them in the use of proper foods and there is no place better fitted for such education than the school. By furnishing these children with a properly selected lunch at cost price, at the same time in a practical way teaching them the nutritive value of the different foods, we would be furnishing them with such knowledge which if reflected in the home, would aid that home in carrying out its own proper function. During my visit to the American cities, I had many opportunities of observing the operation of school lunches from the simplest form to the most elaborate. I was very much struck with the easy manner in which they can be operated without disturbance of the school work and without expense to the Board of Education except a small cost for equipment.

From the eagerness with which the children came forward to receive their lunch, I am led to believe that if a mid-morning lunch was furnished, in a few selected schools in the city, that instead of spending their odd coppers in candy and titbits which are often exposed to dirt and filth and grossly adulterated, they could be induced to spend them for a nourishing glass of milk or chocolate. And I believe that if such were established we would have the hearty co-operation of Principals and teachers in seeing that they were properly carried out, for they know better than any others, the number of children who attend school under-nourished and improperly fed.

SANITATION OF SCHOOLS

I have visited practically every school in the city, and find the conditions fairly satisfactory. On the whole I find the caretakers are doing their work in a manner which is very creditable indeed. Some however, are working under great disadvantages, especially in the older schools, where, owing to construction of buildings and the use of systems of heating, ventilation and plumbing, which have long since been discarded, it is impossible to get satisfactory results. Yet there are some caretakers who could do much better work than they are now doing.

The ventilation generally was very satisfactory. In some of the schools however the ventilating system was very old and not very satisfactory. In these cases it would be better to do away with the system altogether and use open window ventilation.

FRESH AIR INTAKE

In practically all the schools the fresh air inlet is on the level with the ground. The fresh air entering the rooms, as it is drawn in from near the ground, is filled with dust and ashes, and foreign matter of various kinds. This is not a very sanitary condition of affairs and the breathing of this air is not conducive to the very best health of the children. To my mind, the air going into the school room should be taken from a height of fifteen or twenty feet above the level of the ground. This would give purer and cleaner air. The other alternative would be to have the air washed before being carried to the class rooms. The great advantage of this would be that the humidity of the air would increase, and by that means be improved.

VENTILATION IN BASEMENTS

Many of the basements were very poorly ventilated. This is due to the fact that caretakers are in the habit of keeping their windows closed. I think it should be an instruction to caretakers to raise the basement windows for ventilation at suitable times. Receptacles for refuse should be placed in both the boys' and girls' basements and in the lavatories, and the children should be made use them.

URINAL TROUGHS

In many of the schools where the old urinal troughs are used there is a strong odor of urine. This is due in some instances to bad drainage, to allowing crusts to form upon the trough, and soakage through the floor Troughs should be abolished as soon as possible.

The lavatory accommodation in many of the schools is inadequate, falling far below that required by the Regulations of the Education Department. There are many varities of flush closets, but there seemed to be as good satisfaction from the automatic flush as from any other, particularly for the use of children. I think the Board should consider the advisability of putting some form of screen doors upon the closets, especially in the girls lavatory where there are large girls attending school. They should also consider the advisability of putting closet accommodation for the children on top floor of all new schools. In many of the older schools, there is not proper toilet accommodation for the teachers. This matter should be attended to.

In the older schools, the caretakers cannot flush the basement floors, owing to the fact that there is no wash-out drain. A wash-out drain should be placed in every basement where it is possible.

DRINKING FOUNTAINS

There are many varities of drinking fountains in use in the public schools. Some of them are good and some are poor. In many schools the supply is inadequate, and in others I find only about twenty-five per cent in working order. This matter should be gone into by the Board, and a decision arrived at as to which is the most serviceable and sanitary fountain, and that should be adopted. These fountains are also placed so high that many of the smaller children are unable to reach them. They should be placed so low that even the smallest child would be able to drink. These fountains should never be placed in lavatories.

CLOAKROOMS

In every school the children's clothes are hanging in a cloakroom, which is practically a part of the class room. This, to my mind is very unsanitary. Many of these cloak rooms are very poorly ventilated. This might be a possible source of the spread of contagious diseases.

ADJUSTABLE BLINDS

Every window in the school should be furnished with adjustable blinds, particularly those to the Southern and Western exposure. The old blinds do not allow proper ventilation.

INSTRUCTION TO ARCHITECTS

In all new buildings and where possible in old buildings, the Board should adopt some policy with regard to the situation of the Medical inspection Room and the Teacher's Dining-room. My opinion is that the Medical Room should be on the second floor, because in that position it is most convenient to all children in the school. The Teacher's Dining-room should be on the top floor.

SPECIAL CLASSES

The care and treatment of physically and mentally defective children is a problem which has agitated the public mind for a number of years. During the past two years those interested in social work in the city of Toronto have been trying to impress upon the various public bodies their responsibilities in caring for these children, particularly those who are mentally deficient. The Board of Education has not yet assumed responsibility in this matter. They established splendid schools for those who are physically handicapped, but practically nothing has been done for the mentally deficient. According to authorities there are two out of every hundred school children who are more or less mentally defective. Thus we would have about 1,200 mentally defective in our schools. This may seem a very large number, but

the percentage has been found to be fairly constant. The majority of these children should not be in the ordinary class room because not only are they receiving very little benefit themselves, but are a great hindrance to the normal child. The mentally deficient should be placed in special classes where they can receive education suitable to their mental calibre. In this connection, I might say that Toronto is behind the American cities I visited last fall who are grappling with the problem in a manner that deserves the highest commendation. Low grade mentally defective children should be in a Government institution under custodial care.

I should like to see the Board establish classes for blind, deaf, and crippled children of school age. As an educational body we must not shirk our responsibility to these poor unfortunates, handicapped in the struggle for existence.

Reports from the Chief Dental Officer, Supervisor of School Nurses, Special Examiner for Tuberculosis, and detailed reports of the work of each Medical Officer and School Nurse are herein submitted.

Respectfully submitted,

ALEX. MACKAY,
Chief Medical Officer.

ANNUAL REPORT OF CHIEF DENTAL OFFICER, 1915

Toronto, December 31st, 1915.

To the Chief Medical Officer,
Board of Education,
Toronto.

Dear Doctor MacKay:

I have the honor to present the following report upon Dental Inspection of Public School Children and School Dental Clinics for the year ending the 31st December, 1915.

During the past year fifteen Dental Districts have been arranged embracing all of the schools in the city. The average number of schools in each district is six. The number varies, however, from three to seven according to the local need for dental service. There being but fourteen Dental Officers on the Staff, one Dental Officer has been placed in charge of the two adjacent districts of Eglinton and Jesse Ketchum.

The schools comprising these Dental Districts are as follows, the first named school in each group indicating the location of the clinic:—

1. JESSE KETCHUM, Brown, Cottingham, Huron, Rosedale, Rose Avenue.
2. JOHN FISHER, Eglinton Avenue, Davisville, Deer Park, Bedford Park, Hodgson.
3. EARLSCOURT, Hughes, McMurrich, Pyne, Regal Road, Hillcrest, Humewood.
4. ANNETTE, Carlton, St. Clair, Strathcona, Western Keele.
5. PERTH, Howard, Kent, Pauline.
6. ESSEX, Dewson, Palmerston, Clinton, Dovercourt.
7. SHIRLEY, Queen Victoria, Parkdale, Fern Ave., Joseph Workman, Alexander Muir, Brock Avenue.
8. MANNING, Crawford, Givens, Grace, Niagara.
9. RYERSON, King Edward, Lansdowne.
10. ORDE, Wellesley, Hester Howe, Church, Victoria, Winchester.
11. OGDEN, York, Brant, Shelter, McCaul.
12. DUKE, Sackville, Dufferin, Lee, Park, Allan, George.
13. QUEEN ALEXANDRA, Bolton, Frankland, Withrow, Morse, Evangelia, Kitchener.
14. RODEN, Leslie, Duke of Connaught, Earl Grey, Pape Avenue, Wilkinson.
15. KIMBERLEY, Balmy Beach, Coleman Avenue, Kew Beach, Norway, Williamson Road.

This arrangement of schools, necessitated the equipment of dental clinics in Orde and Jesse Ketchum schools but will make the work of the department much more efficient.

CASES RECEIVING COMPLETE TREATMENT, 1915

The number of children who received complete dental treatment during the year was as follows:—

January	516
February	677
March	880
April	539
May	617
June	584
September	467
October	445
November	407
December	508
Total	5,640

ORTHODONTIA WORK IN THE SCHOOLS

Heretofore members of the Dental Profession have advised that the treatment of cases of irregularity of the teeth be deferred until the child's age was from twelve to fourteen years. Recently, however, treatment in cases of irregularity has become more preventive in character Bad habits have been found to have a marked influence in producing irregularity and causing an increased susceptibility to dental caries. Nail and lip biting; tongue, thumb and cheek sucking are now recognized as being responsible for many serious deformities. "Close-bite" of the temporary teeth (sometimes caused by the child supporting the weight of the head by resting the chin in the hand) is a very frequent predisposing cause of marked irregularity of the permanent teeth, and yet is capable of comparatively simple preventive treatment. The pernicious habit of mouth breathing with its attendant evils, may also be corrected by co-operative treatment between the home and the school.

In fact, preventive measures may be applied in most cases of orthodontia providing there be an early recognition of the predisposing cause. These matters have received the attention of the Dental Staff, and, at a special meeting, Dr. George Grieve, orthodontist, was invited to be present. Suggestions regarding early diagnosis have also been made by your Chief Dental Officer to the school nurses.

PREVENTION OF DENTAL DECAY

The problem of the prevention of dental caries includes questions of diet, mastication and oral cleanliness. These are matters requiring systematic instruction, and it is essential that there should be active co-operation between the home and the school teacher, nurse and dental officer, if the best results are to be obtained. The active sympathetic help of the teacher is most important in checking up the daily hygienic care of the oral cavity.

For the purpose of obtaining information regarding the individual child and of magnifying the importance of Oral Hygiene, a system of grading has been adopted. This is known as Oral Hygiene Grade, and is represented by the figure 1, 2, 3 or 4. These figures have the following significance:—

Grade No. 1—Mouth conditions excellent.

Grade No. 2—Mouth conditions good.

Grade No. 3—Mouth conditions fair.

Grade No. 4—Mouth conditions poor.

It is planned to grade the children twice a year following the mid-summer and Easter vacations. The following tabulation indicates the results of the dental examination following the summer vacation of 1915:—

6 schools graded excellent (1 to 1.75)

54 schools graded good (1.75 to 2.50)

24 schools graded fair (2.50 to 3.25)

Not a single school was graded poor. This speaks eloquently of the work accomplished in the schools since the establishment of dental clinics. In the following tabulation the schools are grouped and arranged in order of merit:—

(1 to 1.75) Excellent		(1.75 to 2.50) Good		(2.50 to 3.25) Fair	
Brown	1.59	Bolton	1.77	Withrow	2.51
Roden	1.63	Rosedale	1.77	Orde	2.54
Duke	1.65	Shelter	1.80	Hester How	2.55
Annette	1.66	Strathcona	1.81	Kimberley	2.56
Lee	1.70	George	1.84	Essex	2.56
Western	1.75	Hillcrest	1.85	Dovercourt	2.56
		Huron	1.88	Lansdowne	2.58
		Queen Alexandria	1.90	Winchester	2.59
		Ogden	1.90	Rose Avenue	2.59
		Keele	1.91	Fern	2.60
		Humewood	1.92	Frankland	2.61
		John Fisher	1.93	Coleman	2.61
		St. Clair	1.93	Regal	2.65
		Sackville	1.95	Duke of Connaught	2.66
		Niagara	1.96	Pape	2.67
		Victoria	1.98	Church	2.68
		Dufferin	1.99	Kew Beach	2.68
		Davisville	2.05	Norway	2.69
		Carlton	2.05	North Leslie	2.70
		Hughes	2.06	Allan	2.76
		McCaul	2.10	Pyne	2.77
		Brant	2.10	Earl Grey	2.79
		Ryerson	2.10	North Pape	2.88
		Eglinton	2.10	Morse	2.94
		Crawford	2.10		
		Manning	2.12		
		Earlscourt	2.13		
		Howard	2.13		
		Perth	2.16		
		Dewson	2.17		
		McMurrich	2.18		
		Kent	2.18		
		Palmerston	2.19		
		King Edward	2.20		
		York	2.23		
		Park	2.25		
		Queen Victoria	2.25		
		Bedford Park	2.25		
		Balmy Beach	2.28		
		Williamson Road	2.29		
		Pauline	2.29		
		Shirley	2.29		
		East Davisville	2.30		
		Brock	2.31		
		Joseph Workman	2.31		
		Clinton	2.32		
		Grace	2.36		
		Deer Park	2.36		
		Givens	2.36		
		Leslie	2.41		
		Cottingham	2.44		
		Parkdale	2.48		
		Wellesley	2.48		
		Jesse Ketchum	2.52		

In this connection it is worthy of note that as the children become older greater attention is paid to oral cleanliness—that is to say, the poorest oral hygiene grading was found in the kindergarten grades. This fact should be impressed upon parents as well as teachers.

The Oral Hygiene Grades for the city, according to school classes, average as follows:—

Senior IV	2.0
Junior IV	2.1
Senior III	2.1
Junior III	2.2
Senior II	2.2
Junior II	2.2
Senior I	2.2
Junior I	2.3
Kindergarten	2.3

Following the examination of the scholars those whose mouth conditions were graded low were given special prophylactic treatment and instruction.

DENTAL DEFECTS—OCTOBER, 1915

The following tabulation, though incomplete in some details, indicates the present need for dental services among school children:—

SCHOOLS	SCHOLARS			NO. OF DEFECTIVE TEETH

The average percentage of dental defectives is 65 per cent. (49,081 children examined). This compared favorably with the average of 95 per cent. defective previous to the establishment of dental clinics, but must be further reduced if we are to maintain the scholars at a proper degree of efficiency.

The present dental staff is inadequate to meet the demands placed upon it. Particularly is this true in some of the poorer districts where it will be necessary to appoint Dental Officers for afternoon service in the very near future. This will entail no extra cost for instruments or equipment, the expense being almost entirely confined to the operators' salary.

On behalf of the members of the Dental Staff, I desire to pay sincere tribute to the memory of the late Dr. W. H. Doherty, who was my predecessor as Chief Dental Officer. The present high state of efficiency in the dental department is to be largely attributed to his self-sacrificing service faithfully rendered from the inception of Dental Inspection in the schools of Toronto to the time of his decease.

Respectfully submitted,

WALLACE SECCOMBE,
Chief Dental Officer.

REPORT OF THE SPECIAL EXAMINER

To the Chief Medical Officer,
Board of Education,
Toronto.

Dear Doctor:

I have the honour to present herewith a report of the special branch of Medical Inspection dealing with tuberculosis among the public school children of Toronto.

The first report was mainly descriptive of the organization which had been developed to carry on the work.

During this year only a few minor changes have been made in the methods previously outlined.

A larger measure of co-operation has been developed with the family physician, dentist, the organization of tuberculosis clinics at the Toronto General, St. Michael's, Western, and the Hospital for Sick Children, the National Sanitarium Association, the various missions, the social service organizations, and the Department of Health.

Respectfully submitted,

F. S. MINNS,
Special Examiner.

To the Chief Medical Officer,

Board of Education, Toronto:

Sir,—As Supervisor of School Nurses I have to report that during the past year the School Nurses have continued to work towards the correction of physical defects found by the medical officers, and have at the same time by personal contact with the parents and children imparted a life-knowledge of the standards of hygienic living and of the results of neglect in this direction.

As a whole the work of the nurses has been distinguished by conscientious and intense interest, and has been successful in attaining most remarkable results.

A great effort has been made to concentrate on the correction of the more important defects and to teach the parents or guardians the treatment of minor defects in the home.

Instructions were given the nurses to give their attention to the defects which positively menace the present safety of the child and his future general health and to more certainly secure the correction of chronic physical defects. Care has been given to the finding and weeding out of these defects before disease has set in, and to the improvement of those physical qualities which are the fundamental basis of usefulness. In carrying on this part of the work each little individual had to be studied, the result being that many were found to need a great deal of care, others not so much, from all of which it is

easy to see that the mission of the School Nurse is no easy task, for upon her rests to a great extent, the responsibility for the physical development of the children.

It is, of course, self-evident that the lack of parental care is at the bottom of truancy. This has been taken into account at the time of the Social Service work of the nurse in the various homes and the effect in school attendance has been marked.

A department of the work of the nurses which has given special satisfaction is that among the "Little Mothers," who through the training and instruction they receive from the nurses are proving of such assistance in the homes by the methodical and wise care they now give the little ones of the family. The "Big Mothers," too, are benefitting immeasurably by the instruction given, and to the improvement brought about through the medium of these two classes may be attributed no small share in the lessened death rate among the little ones.

Testimony to the work of the nurses was given by the Principal in a school in one of our poorest districts, when he said: "The reformation is wonderful. To go into one of our classrooms now is like going into a flower garden. A few years ago these children came to school filthy and diseased."

In connection with the home it may be stated that parents are co-operating in a way that must be productive of much good. The homes are better ventilated and more sanitary in every way. There are fewer cases of contagious disease and greater attention is being paid to the eradication of flat chests, adenoids, poor nutrition, crossed eyes and other formerly quite common defects.

In order to more effectually help the child by being in a position to work for the moral and physical uplift of the entire family, the nurses during the past year took up the Social Service Course at the University, attending the lectures given twice a week from 4.30 to 5.30 p.m. from October to May. All passed the examinations required. The work of Social Service is needed as much in the school as in any hospital ward.

A new era has begun for the class of handicapped children, the social policy of which is to give to every

neglected, defective, and delinquent child those things which every child ought to have plus whatever may be needed to help him overcome his handicap. It will be some time before this is fully realized, but it is much that the idea is here. Much of its working out is involved in the program of the School Nurse.

Even up to the present it may be claimed that tardiness and absence from school are much lessened, the morals of the children improved, and the homes have experienced an increase in general happiness, in all of which it is recognized that the school nurse had no small share.

In conclusion would urge that still greater effort be put forth in the interests of the feeble-minded and unfit and to redeem the exceptional child by special opportunities for the gifted, and to give to these as well as the sub-normal every advantage that medical or social science can suggest.

Appended will be found a detailed report of each nurse, showing the work accomplished this year.

Respectfully submitted,

E. M. PAUL,
Supervisor of School Nurses.

Report of Clerk of Supplies

CLERK OF SUPPLIES' ANNUAL REPORT

To the Chairman and Members of the Board of Education:

I have the honor to submit the following report in regard to Text Books and Supplies furnished by the Board of Education for the year 1915.

The following school supplies were furnished to the pupilsfree: Text Books, except Geographies; Work Books, Note, Exercise, Dictation, and Writing Books, Drawing and Practice Paper, Lead Pencils Slates and Slate Pencils, Chalk, Pens, Penholders, Envelopes, Ink, Paints, Art, Brushes, Colored Crayons, Pastel Crayons, Crayographs, Charcoal for Art Work, Bookkeeping Blanks, Business Forms, etc. There is in addition a larger variety of books provided for supplementary reading for all grades. These are loaned to the pupils to be used in school and are not to be taken home. Shorthand Note Books, Typewriting Supplies, etc., are supplied free for use in the Commercial Classes. Shorthand Text Books, Bookkeeping Texts, are loaned to pupils the same as Geographies and Supplementary Readers.

All classes in which sewing is taught are furnished with Needles, Thread (both silk and cotton), Braid, Tape, Canvas, Prints, Ginghams, Lawn, bleached and unbleached Cotton, Damask, Dress Goods, Wool, etc.

There are eighty-two Kindergartens in the schools, each having a large attendance, these are furnished with apparatus and other equipment and the many supplies used in the Kindergarten work.

There are Fourteen Manual Training centres; these are supplied with Lumber, special Drawing Paper, Pencils, Hardware, Stains, Oils, Varnish, Tools, etc.

There are fourteen Household Science centres, where cooking is taught. These are supplied with Groceries, Meats, Vegetables, Cereals and all supplies that are used in teaching this subject. There is also one House-keeping Centre, where Cooking, Sewing and General House-keeping is taught in all its branches.

Fifteen Supervised Playground Schools were conducted during the months of July and August, and received

a supply of Sand, Pails, Trowels, Scoops, Rubber Quoits, Base Balls and Bats, Basket Balls, Foot Balls, and other apparatus for the exercises and games carried on in these schools. First Aid Medical Supplies are furnished to each centre.

One Supervised Vacation School was open during July and August, and received supplies of Wool, Needles, Raffia, Canvas, Special Paper and other sewing material. This was used by the children in making many useful articles, also First Aid Medical equipment supplied.

There is a Medical Department in each school equipped with the following: Vaseline, Absorbent Cotton, Boracic Powder, Bandages (assorted sizes), Tincture of Green Soap, Rolls of Adhesive Plaster, Collodion, Bi-Chlorate Tablets, Sulphur Ointment, Zinc Oxide, Tr. Iodine, White Precipitate, Formalin, Castile Soap, Paper Towels, etc. These are for the use of the Medical Inspectors and Nurses; and they amount to a considerable item during the year.

There are two open air forest schools—one in High Park, in the western part of the city; the other in Victoria Park, in the east. These schools receive the regular school supplies, and each pupil is also furnished with a cot, pair of blankets, one waterproof pil'ow, and one waterproof cover for bed, for protection from the rain. These schools have a fully equipped kitchen and dining room, where the pupils in attendance and staff receive three meals each day. A large quantity of Milk, Bread, Groceries, Meats, Vegetables, Fruit, Ice, Fuel, etc., is supplied to these schools. The attendance numbers about 100 at each school. These schools are in charge of a male Principal, with two teachers and a nurse to assist, also two cooks and one assistant are employed.

There are fifteen Dental Clinics connected with the schools—one for each group of about six schools. Each Clinic is fully equipped with Dental Chair, Engine and other apparatus and receives all the necessary supplies required for carrying on this work. In addition to these fifteen permanent Clinics, there were temporary Clinics opened in several schools throughout the city, to which the apparatus for conducting this work is moved from time to time as required.

Twenty-two Public Night Schools, including five Manual Training and six Domestic Science, were opened in the Public Schools for six months during the year. viz., October to March inclusive. All of thees schools received supplies of various kinds necessary for carrying on their work.

In addition to the above the Central Technical School has three Branch Night Schools, one in the eastern, one in the northern and one in the western part of the city. The High School of Commerce also has three Branch Night Schools, one in the eastern, one in the northern and one in the western part of the city. These Night Schools receive the necessary supplies required. Night Schools were also held in Jarvis and Harbord Street Collegiates, and North Toronto High School.

The Central Technical School, which teaches a variety of subjects, requires an ever-increasing and varied quantity of supplies for teaching Art, Science, Physics, Household Art, Mechanical and Industrial Instruction is given and material is supplied for these, including machinery, tools and other equipment.

The High School of Commerce, Collegiate Institutes and High Schools receive general School Supplies, Art Supplies, and a large quantity of Apparatus and Chemicals for Science work.

Caretakers of all schools receive large quantities of Floor Oil and other material for cleaning, also Tools, Hardware, Lawn Mowers, Hose, Wheel Barrows, and many other supplies.

As the schools are increasing in size and number, it is very necessary that each school should have a separate room in which to keep supplies. It should be of sufficient size to hold supplies required for three or six months. If greater quantities could be delivered to the schools it would mean fewer deliveries. This room should be on the ground floor, or in the basement.

In addition to the above, the following are supplied and under control of this department: Flags, Fire Extinguishers, Pianos, Office Supplies, Printing, Window Shades, Gymnasium Apparatus, Express Work, Gas, Water, Electric Light and Power, Telephones, etc., 18,750

Flowering Plants, 981 Shrubs, 19,320 Bulbs, a large quantity of Grass Seed. Black Loam, Manure and other Fertilizer were supplied to the schools. Several of the schools did not receive plants owing to building operations going on and their grounds not being ready.

This Department made and delivered to the schools during the year 2,200 gallons of ink at an estimated cost of 25c. per gallon.

All accounts for supplies under the control of this department are checked and duplicates made out in this office and certified to for the Advisory Industrial, Advisory Commercial, and the Management Committees of the Board.

Fuel—The supplying of fuel for such a large number of buildings is becoming a greater problem each year, not only in regard to the cost, but also in the quantity used. In many of our schools night classes are conducted and meetings of various kinds are held at night. These schools are required to be heated until ten o'clock, and in some cases much later. Gas, electric light and power for ventilation purposes are supplied, and the water has to be kept running continuously in the wash rooms until the buildings are closed. The automatic self-acting flush tanks use a large quantity of water, therefore the cost for water, fuel and electricity must necessarily increase. Many of the schools require from 150 to 270 tons of coal, as well as a large quantity of wood and charcoal required for lighting the fires. As the storing capacity for fuel in the basements is limited to only a part of what is required for the year, I think it would be well for the Property Committee to consider the advisability of constructing fuel areas of sufficient size to hold the year's fuel. These should be underground immediately outside of the school buildings and of easy access to the boiler rooms. These coal pockets could be extended any distance desired and would not curtail a foot from the playgrounds. They should have several openings on the top outside so that coal may be delivered at any time without dust being carried through the building. Where coal has to be delivered through the school yard there should be a drive way from the street to the coal chute, constructed of reinforced planking, brick or concrete. This need only be a strip wide enough for a

waggon or truck to use. The ordinary planking will carry only single horse loads without breaking. When a contractor is limited to single loads it adds to the cost for delivery, whereas if he can deliver by motor truck or team loads it takes less time and reduces the cost, besides eliminating the breaking of plank in the yard.

There would be no cost to the Board beyond that of construction, as they would be on the property belonging to the Board. If the heating plants in the schools were constructed so that they would burn screenings, a large saving could be effected in the cost of coal.

The cost of Text Books and other supplies purchased during the year was as follows:

PUBLIC SCHOOLS

Text Books, $12,052.14; School Supplies, $12,936.07; Bank Books, $13,263.84; Supplementary Readers, $6,484.03; Kindergarten Supplies, $8,483.04; Drawing Material, $3,986.35; Manual Training Supplies, $4,034.22; Domestic Science Supplies, $4,460.82; Commercial Supplies, Typewriters, etc., $1,902.25; Medical Inspection and Dental Supplies, $2,854.58; Wall Maps, Globes and Apparatus, $1,899.31; Sundry and Office Supplies, $5,172.70; Caretaker's Supplies, Hardware, etc., $4,474.07. Amount received from sale of books, old paper, etc., $870.01. Estimated value of stock on hand in storeroom at end of the year, $36,390.72.

FREE TEXT BOOKS

The total cost of Free Text Books issued in 1915 was $14,932.14. Of the amount $366.25 were returned for the text books sold, leaving a balance of $14,565.89 as the cost of Free Text Books during the year. In nearly every school the books have been preserved with great care.

The total cost of supplies, including work books, exercise books, book-keeping blanks, note books, dictation books ,business forms, drawing materials, writing books, slates and rulers was $20,702.79. $504.46 were received for supplies during the year, leaving the net cost of supplies $20,198.33.

The cost per pupil for text books on the basis of total enrollment, omitting Kindergarten pupils, was 25 cents. This is larger than usual, because so many new books had to be purchased, which have been recently authorized by the Education Department.

The cost per pupil for text books on the basis of average monthly attendance, omitting Kindergarten pupils, was 28 cents.

The cost per pupil for supplies on the basis of total enrollment, omitting Kindergarten pupils, was 33 cents.

The cost per pupil for supplies on the basis of average monthly attendance omitting Kindergarten pupils, was 39 cents.

The cost per pupil for both text books and supplies on the basis of average monthly attendance, omitting Kindergarten pupils, was 67 cents.

The cost per pupil for text books, supplies and kindergarten material on the basis of total enrollment was 61 cents.

In the above statement the text books and supplies for Night Schools are charged against the day school pupils.

COLLEGIATES

Library and Maps, $541.86; School Supplies, $707.63; Office and Sundry Supplies, $1,087.48; Commencement, $175.60; Art Models and Decorations, $646.40; Printing, $150.00; Gymnasium Apparatus, $252.13; Caretakers' Supplies, Hardware, etc., $272.67; Science and Laboratory Supplies, $2,952.86; Manual Training Supplies, $362.96; Domestic Science, $408.21; Cadet Uniforms, etc., $3,778.57

HIGH SCHOOL OF COMMERCE AND FINANCE

Library and Maps, etc., $288.17; School Supplies, $79.05; Science and Laboratory Supplies, $481.08; Business Technique, Typewriters, etc., $566.35; Office and Sundry Supplies, $88.94; Printing, $222.65; Commencement, $32.00.

TECHNICAL HIGH SCHOOL

Architecture, Machine Drawing and Design, $997.19; Mathematics, $76.95; Physics, $553.46; Chemistry, $411.41; Shop Work, $3,396.23; Supplies Engineering Department, $577.49; Caretakers' Supplies, Hardware, etc., $652.34; Library and Maps, $236.73; Domestic Art and Household Science, $3,839.22; School Supplies, $1,280.61; Office and Sundry Supplies, $459.94; Printing $1,717.63. Commencement, $15.25; Cadet Uniforms, $1,162.96.

Appended will be found tables showing quantites of some of the supplies furnished to the schools this year, also the quantity of fuel supplied, showing the cost per school and per room.

Supt. of Buildings' Annual Report

SUPERINTENDENT OF BUILDINGS' ANNUAL REPORT

TO THE CHAIRMAN AND MEMBERS OF
THE BOARD OF EDUCATION:

In compliance with Clause 2, Section 78, By-Laws and Regulations of the Board, I have the honor of herewith respectfully submitting my twelfth Annual Report.

C. H. BISHOP,
Supt. of Buildings.

STATISTICS

The following condensed extracts from statistics will give information not to be found elsewhere except at considerable labor of searching through the different schedules.

For greater convenience in looking up details of information contained in the Schedules appended, reference may be had to the Index at the end of this Report.

SCHOOL ACCOMMODATION

Number of Buildings owned by the Board:

High Schools	10	
Public Schools	90	
Public Schools, Portable	13	
Manual Training and Household Science	2	
		115

Number of Buildings occupied by the Board:

HIGH SCHOOLS

Permanent Buildings	10	
Portable Buildings	2	
		12

PUBLIC SCHOOLS

Permanent Buildings	92	
Portable Buildings	13	
Play Sheds and Rented Rooms	7	
Industrial Schools, Homes, etc	9	
		121
Total		131

Number of Rooms occupied by the Board:

HIGH SCHOOLS

Permanent	238	
Temporary	5	
		243

PUBLIC SCHOOLS

Permanent	1226	
Temporary (on school premises)	40	
Rented	9	
Industrial Schools, Homes, etc.	12	
		1287

Riverdale Collegiate	62.00	
Oakwood Collegiate	62.00	
Malvern Collegiate	64.00	
Humberside Collegiate	52.00	
North Toronto Collegiate	54.52	
Offices—Switchboard	841.00	
Total of Item No. 100		$1,307.52

APPENDIX XXIV.

Statement of Expenditure for "Water Rates" for each Collegiate Institute for 1915, as given in one sum in Item No. 101 in General Statement.

Jarvis Collegiate	108.71	
Harbord Collegiate	186.26	
Parkdale Collegiate	67.21	
Riverdale Collegiate	180.74	
Oakwood Collegiate	105.18	
Malvern Collegiate	139.21	
Humberside Collegiate	110.28	
North Toronto Collegiate	82.03	
Total of Item No. 101		$979.62

APPENDIX XXV.

Statement of Expenditure for "Window Shades" for each Collegiate Institute for 1915, as given in one sum in Item No. 102 in General Statement.

Jarvis Collegiate	18.39	
Harbord Collegiate	45.65	
Parkdale Collegiate	31.05	
Riverdale Collegiate	17.18	
Malvern Collegiate	35.65	
Total of Item No. 102		$147.92

APPENDIX XXVI.

Statement of Expenditure for "Repairs" for each Collegiate Institute for 1915, as given in one sum in Item No. 103 in General Statement.

Jarvis Collegiate	2,258.53	
Harbord Collegiate	3,187.25	
Parkdale Collegiate	1,016.69	
Riverdale Collegiate	3,170.93	
Oakwood Collegiate	4,085.24	
Malvern Collegiate	1,591.20	
Humberside Collegiate	1,670.26	
North Toronto Collegiate	552.90	
Total of Item No. 103		$17,533.00

APPEDNIX XXVII

Statement of Expenditure for "Cupboards, Lockers, etc.," for each Collegiate Institute for 1915, as given in one sum in Item No. 104 in General Statement.

Harbord Collegiate	1,063.88	
Parkdale Collegiate	215.17	
Riverdale Collegiate	350.18	
Oakwood Collegiate	257.76	
Humberside Collegiate	217.59	
North Toronto Collegiate	.84	
Total of Item No. 104		$2,105.42

APPENDIX XXVIII

Statement of Expenditure for "Furniture" for each Collegiate Institute for 1915, as given in one sum in Item No. 105 in General Statement

Jarvis Collegiate	1,967.40	
Parkdale Collegiate	10.32	
Riverdale Collegiate	20.00	
Malvern Collegiate	401.06	
Harbord Collegiate	80.00	
Total of Item No. 105		$2,478.78

APPENDIX XXIX

Statement of Expenditure for "Furniture Repairs" for each Collegiate Institute for 1915, as given in one sum in Item No. 106 in General Statement.

Jarvis Collegiate	100.83	
Harbord Collegiate	7.83	
Parkdale Collegiate	7.16	
Riverdale Collegiate	6.29	
Oakwood Collegiate	12.39	
Malvern Collegiate	27.51	
Humberside Collegiate	22.88	
North Toronto Collegiate	5.88	
Total of Item No. 106		$190.77

APPENDIX XXX

Statement of Expenditure for "Furniture and Fittings for Biology Chemistry and Physics," for each Collegiate Institute for 1915, as given in one sum in Item No. 107 of General Statement.

Jarvis Collegiate	3.60	
Harbord Collegiate	692.15	
Parkdale Collegiate	1.45	
Malvern Collegiate	1,552.35	
Humberside Collegiate	.90	
North Toronto Collegiate	100.00	
Total of Item No. 107		$2,350.45

APPENDIX XXXI

Statement of Expenditure for "Games and Rinks" for each Collegiate Institute for 1915, as given in one sum in Item No. 108 of General Statement.

Jarvis Collegiate	81.11	
Harbord Collegiate	27.12	
Parkdale Collegiate	36.80	
Riverdale Collegiate	24.41	
Oakwood Collegiate	158.81	
Malvern Collegiate	31.25	
Humberside Collegiate	39.82	
North Toronto Collegiate	283.11	
Total of Item No. 108		$682.43

APPENDIX XXXII

Statement of Expenditure for "Targets, Shields, Cabinets, etc., for Cadets" for each Collegiate Institute for 1915, as given in one sum in Item No. 109 of General Statement.

Jarvis Collegiate	291.16	
Harbord Collegiate	47.20	
Humberside Collegiate	212.91	
Riverdale Collegiate	48.22	
Oakwood Collegiate	140.67	
Malvern Collegiate	53.38	
Total of Item No. 109		$793.54

APPENDIX XXXIII

Statement of Expenditure on "Piping, Wiring and Fixtures for Lighting" for each Collegiate Institute for 1915, as given in one sum in Item No. 114 of General Statement.

Jarvis Collegiate	272.31	
Harbord Collegiate	329.38	
Riverdale Collegiate	545.20	
Oakwood Collegiate	57.04	
Malvern Collegiate	80.43	
Humberside Collegiate	285.38	
Total of Item No. 114		$1,569.74

APPENDIX XXXIV.

Statement of Expenditure for Salaries of Teachers, Temporary Teachers and Caretakers of the Technical High School for 1915, as given in one sum in Item No. 116 in General Statement.

Teachers	73,226.75	
Temporary Teachers	26,133.12	
Caretakers	7,179.55	
Technical School's share of expense in connection with administration	3,177.48	
Total of Item No. 116		$109,716.90

APPENDIX XXXV

Statement of Expenditure for new Public School Buildings, Enlargement of present school buildings, new school sites and enlargement of present school sites as given in one sum in Item No. 174. in General Statement
